SUCCESS

EVALUATION FOR ACCOUNTABILITY COURTS

Accountability Courts are proving successful. Across the U.S. they are effective in tackling co-occurring disorders, reducing substance misuse, and lowering recidivism. They are delivering cost savings to the CJS and wider benefits to offenders, their families and communities.

MEASURING THE IMPACT OF ACCOUNTABILITY COURTS.

GtD's cutting-edge approach to measurement and evaluation is supporting innovation in the criminal and juvenile justice systems. Our social impact analytics can help accountability courts to measure, learn and prove their impact – definitively.

WHERE'S THE VALUE IN EVALUATION?

There are over 2,500 accountability courts in the U.S. and there is mounting evidence that they are successful. More can be done, however, to improve, replicate and sustain this innovative approach. So, whether you are setting up a new accountability court, implementing a new 'evidence-based' intervention, extending an existing program or reporting your impact to your funder, then GtD's social impact analytics are for you.

% MEASURING

If your court is implementing a new program, GtD's Impact Measurement service will determine its

intended impacts, how to measure them and identify what resources will be required. In providing this service we will collect data and report analyses that will be relevant to judges, court managers and practitioners.

LEARNING

GtD's social impact analytics can help your accountability court improve its existing program. Our Predictive Analysis service will help practitioners identify what is working best for offenders, and will provide information for managers to re-define high-quality interventions and deliver a more effective program.

PROVING

Ultimately, your accountability court will want to prove its impact. Our rigorous Impact Evaluation service will provide definitive evidence of reductions in recidivism, lower substance misuse and the wider benefits to individual offenders, the local criminal justice system and community.

+ BENEFITS OF SOCIAL IMPACT ANALYTICS

GtD believes that our social impact analytics can help accountability courts to:

- Be confident of their impact data
- Improve the quality of their programs
- Demonstrate their impact and satisfy funders

GET IN TOUCH

Want to understand better the social impact of your service? Contact us now to book a **FREE 1-HOUR SOCIAL IMPACT REVIEW** where we'll take the time to evaluate your current impact management and identify key areas for its development.
